<b>Appendix CH-003-023</b>	<b>i</b>
<b>1 Introduction</b>	<b>3</b>
1.1 Structure of the cultural heritage appendices	3
1.2 Impact assessment	3

<b>List of tables</b>	
Table 1: Impact assessment for CFA23	5

**1**      **Introduction**

**1.1**      **Structure of the cultural heritage appendices**

- 1.1.1      The cultural heritage appendices for the Balsall Common and Hampton-in-Arden area (CFA23) comprise:
- baseline reports (Volume 5: Appendix CH-001-023);
  - a gazetteer of heritage assets (Volume 5: Appendix CH-002-023);
  - impact assessment (this appendix); and
  - survey reports (Volume 5: Appendix CH-004-023).
- 1.1.2      The impact assessment should be viewed alongside its associated map series (Volume 5: Maps CH-01-151b to CH-01-153, CH-02-151 to CH-02-152) and the gazetteer of heritage assets (Volume 5: Appendix CH-002-023), which provide further information on the nature of the assets.

**1.2**      **Impact assessment**

- 1.2.1      Table 1: Impact assessment for CFA23 presents information on the impacts on all identified heritage assets and the likely resultant environmental effects, taking into account agreed mitigation measures. Details on the assignment of values and the assessment of the scale of impacts are set out in the Scope and Methodology Report (Appendix CT-001-000/1) and the SMR Addendum (Appendix CT-001-000/2).

Table 1: Impact assessment for CFA23

Identifier Unique ID	Name	Designation	Value	Construction Impacts			Operation Impacts		
				Nature of impact including mitigation	Scale of impact	Effect	Nature of impact including mitigation	Scale of impact	Effect
BHA001	Medieval and post-medieval fields	Non-designated	Low	The asset will be partially impacted by work to the OHLE. This will permanently alter part of the asset. The majority of the asset will remain and the ability to understand its evidential and archaeological value will be retained.	Minimal adverse	Negligible	No impact on significance	No change	Neutral
BHA002	Image House	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA003	Barn at Image House Farm	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA004	Medieval fields	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA005	Military structures	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA006	Medieval fields	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA007	Medieval fields	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA008	West's Cottage	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA009	Medieval fields	Non-designated	Low	The asset lies partially within the land required to construct the Proposed Scheme; however, no works are proposed in the area. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA010	Berkswell Windmill	Listed Building	High	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA011	Eroded ridge and furrow east of Balsall Common	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA012	Medieval fields	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral

Identifier Unique ID	Name	Designation	Value	Construction Impacts			Operation Impacts		
				Nature of impact including mitigation	Scale of impact	Effect	Nature of impact including mitigation	Scale of impact	Effect
BHA013	Holly House	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA014	Beechwood Farm and barn	Non-designated	Low	There will be permanent impacts on the setting of Beechwood Farm resulting from the construction of the proposed mitigation bund which will introduce a large element into the view and reducing the agricultural land around the farm, therefore eroding its setting.	Low adverse	Minor adverse	The asset will not be physically impacted nor will its setting and significance be adversely affected. Impact upon Beechwood Farm from the Proposed Scheme running on the embankment off Balsall Common Viaduct. This will reduce the significance of the asset by introducing a dynamic element into the existing rural view. This, in combination with the permanent construction impacts, will have a permanent adverse effect on the significance of the asset.	Minimal adverse	Minor adverse
BHA015	Medieval fields	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA016	Medieval fields and eroded ridge and furrow south of Truggist Lane	Non-designated	Low	The asset will be entirely removed through the presence of the Beechwood Farm accommodation underpass satellite compound, the Beechwood Farm accommodation underpass satellite compound and the activities associated with the construction of the Beechwood embankment, Footpath M191 underpass, excavation of a balancing pond and landscape mitigation planting. This will permanently remove the archaeological and evidential value of the asset, both of which contribute a great deal to the significance of the asset.	High adverse	Moderate adverse	No impact on significance	No change	Neutral
BHA017	Ridge and furrow	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA018	Canterbury House	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA019	Medieval fields around Moat House Farm	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA020	Berkswell Grange	Listed Building	Moderate	There will be temporary impacts on the setting of the grade II listed Berkswell Grange resulting from the use of Truggist Lane for local construction traffic. This will have an adverse effect on the seclusion of the asset.	Minimal adverse	Minor adverse	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA021	Rough Close	Ancient Woodland	High	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral

Identifier Unique ID	Name	Designation	Value	Construction Impacts			Operation Impacts		
				Nature of impact including mitigation	Scale of impact	Effect	Nature of impact including mitigation	Scale of impact	Effect
BHA022	Dismantled Kenilworth to Balsall Common line	Non-designated	Low	Removal of a portion of the dismantled Kenilworth to Balsall Common line from construction of satellite offices, balancing ponds, embankments for the Proposed Scheme and planting schemes. This will reduce the archaeological and evidential value of the asset but only a small portion will be affected thus leaving the ability to understand the asset and its archaeological value intact. The historic value will remain unchanged.	Minimal adverse	Minor adverse	No impact on significance	No change	Neutral
BHA023	Barn at Barratts Lane Farm	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA024	Ridge and furrow	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA025	Barratts Lane Farmhouse	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA026	Moat House	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA027	Barn at Moat House	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA028	Barn at 85, Meeting House Lane	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA029	85, Meeting House Lane	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA030	Outbuilding approx. 5m east of 83, Meeting House Lane (not included)	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA031	Meadow House	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA032	Pool Orchard	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA033	Ridge and furrow	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA034	Possible moat or boundary	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA035	Medieval fields	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral

Identifier Unique ID	Name	Designation	Value	Construction Impacts			Operation Impacts		
				Nature of impact including mitigation	Scale of impact	Effect	Nature of impact including mitigation	Scale of impact	Effect
BHA036	Ridge and furrow	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA037	The Brickmakers Arms Public House	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA038	Cottage Farmhouse	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA039	Berkswell Railway Station	Non-designated	Low	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA040	Medieval fields and ridge and furrow north of Shadow Brook and Diddington Hall	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA041	Possible Hay Stack Stand	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA042	Ridge and furrow	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA043	Medieval fields and ridge and furrow around Ram Hall and Lavender Hall	Non-designated	Low	Construction of embankments, the Lavender Hall overbridge, the mitigation bund, landscape mitigation planting the construction of the Balsall Common Viaduct satellite compound, construction of a temporary site access route, excavation of a flood storage area and flood alleviation culverts and the laying down on temporary topsoil and earthworks storage areas will partially remove the archaeological value of the asset. This will reduce the ability to provide further information on agricultural regimes of the medieval period.	Medium adverse	Minor adverse	No impact on significance	No change	Neutral
BHA044	Ridge and furrow	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA045	Moat	Non-designated	Low	Setting impacts upon the moat at Ram Hall from the use of land as a temporary material stockpile area. This will result in an impact on the ability to understand the asset within its landscape setting.	High adverse	Moderate adverse	No impact on significance	No change	Neutral
BHA046	Ram Hall	Listed Building	High	Impacts on setting from the activity of the construction activity associated with the flood compensation area construction of a flood compensation area and earthworks, including a mitigation bund at 5m in height approximately 500m to the west. Construction activities including the presence of cranes, earthmoving plant, temporary material stockpiles approximately 100m to the west and the erection of construction fencing, will impact on the significance of the asset by introducing new elements into its rural landscape setting.	Medium adverse	Major adverse	The operational scheme will move across the Beechwood embankment and Balsall Common Viaduct introducing a new dynamic element into its rural setting. This will be a permanent impact and, in combination with the permanent construction impacts, will affect the ability to understand the significance of its relationship with the wider landscape.	Low adverse	Moderate adverse

Identifier Unique ID	Name	Designation	Value	Construction Impacts			Operation Impacts		
				Nature of impact including mitigation	Scale of impact	Effect	Nature of impact including mitigation	Scale of impact	Effect
				There will be a permanent impact from the Balsall Common Viaduct which will introduce a new feature into the setting of the asset. This will interrupt the rural setting of the asset and affect the ability to understand the significance of its relationship with the wider landscape.	Medium adverse	Major adverse			
BHA047	Barn at Ram Hall	Listed Building	Moderate	Impacts on setting from the construction activity associated with the flood compensation area construction of a flood compensation area and earthworks, including a mitigation bund at 5m in height approximately 500m to the west. Construction activities also include the presence of cranes, earthmoving plant, temporary material stockpiles approximately 100m to the west and the erection of construction fencing. These activities will temporarily impact on the rural setting of the asset.  There will also be a permanent impact from the Balsall Common Viaduct which will introduce a new feature into the setting of the asset. This will interrupt the rural setting of the asset and affect the ability to understand the significance of its relationship with the wider landscape.	Medium adverse  Medium adverse	Moderate adverse  Major adverse	The operational scheme will move across the Beechwood Embankment and the Balsall Common Viaduct. This will provide a greatly increased visual impact upon the asset. This will be a permanent impact and, in combination with the permanent construction impacts, will affect the ability to understand the significance of its relationship with the wider landscape.	Low adverse	Moderate adverse
BHA048	Medieval fields	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA049	Ridge and furrow located to the west of Ram Hall	Non-designated	Low	Removal of area of Ridge and furrow west of Ram Hall also located by LiDAR from temporary material stockpile. This will remove the archaeological and evidential value of the asset.	High adverse	Moderate adverse	No impact	No change	Neutral
BHA050	West of Diddington Lane, south of Shadow Brook. Species-rich and 235m long. 1-2m high. Associated with ridge and furrow near Diddington Hall	Important Hedgerow	Moderate	The asset will be entirely removed through the erection of a temporary construction fence. The significance lies in its association with the ridge and furrow in the surrounding area and with Diddington Hall and in its intrinsic historic, evidential and aesthetic value. These will be permanently removed by the Proposed Scheme.	High adverse	Major adverse	No impact on significance	No change	Neutral
BHA051	Stables at Frogmore	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA052	Frogmore Grange	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA053	Ridge and furrow	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral

Identifier Unique ID	Name	Designation	Value	Construction Impacts			Operation Impacts		
				Nature of impact including mitigation	Scale of impact	Effect	Nature of impact including mitigation	Scale of impact	Effect
BHA054	The Homestead	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA055	Templars Croft	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA056	Barn at Balsall Street Farm	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA057	Ridge and furrow	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA058	Lavender Hall Farmhouse	Listed Building	High	There will be temporary effects on the setting of the hall and its relationship with Ram Hall as a result of the construction of Lavender Hall embankment and Lavender Hall Lane overbridge construction of the Proposed Scheme including presence of cranes, earthmoving plant, temporary material stockpiles and presence of the Park Lane cutting main compound, including temporary worker accommodation and construction fencing. The proximity of these construction elements will impact upon the relationship of the asset to its surrounding landscape setting which makes a positive contribution to its significance.	High adverse	Major adverse	During operation there will be an impact to the rural setting to the south of the building caused by the movement of trains along the embankment and the Balsall Common viaduct, approximately 410m to the south-east. This, alongside the permanent construction impacts, will interrupt the rural landscape which defines the asset's setting to the north and its relationship with Ram Hall	High adverse	Major adverse
				The asset will have its setting impacted by the construction of the Lavender Hall Lane overbridge and Lavender Hall embankment to the north-east of the asset and the Balsall Common viaduct to the south-east. This is considered to be a permanent impact on the relationship of the asset to its surrounding landscape, which forms part of its significance.	High adverse	Major adverse			
BHA059	Barn at Lavender Hall Farm	Listed Building	Moderate	Effects resulting the construction of the Lavender Hall embankment and Lavender Hall Lane overbridge construction of the Proposed Scheme including presence of cranes, earthmoving plant, temporary material stockpiles and presence of the Park Lane cutting main compound, including temporary worker accommodation and construction fencing. This will have a temporary impact on the setting of the asset during the construction of the Proposed Scheme.	High adverse	Major adverse	During operation there will be an impact to the rural setting to the south of the building caused by the movement of trains along the embankment and the Balsall Common viaduct, approximately 410m to the south-east. This, alongside the permanent construction effects, will provide a greatly increased visual impact upon the asset. This will be a permanent impact.	Medium adverse	Moderate adverse
				The construction of Lavender Hall Lane overbridge and Lavender Hall embankment to the north-east of the asset and the Balsall Common viaduct to the south-east will permanently sever the relationship of the barn with its landscape setting, which forms part of its significance.	High adverse	Major adverse			
BHA060	Medieval fields	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral

				Nature of impact including mitigation	Scale of impact	Effect	Nature of impact including mitigation	Scale of impact	Effect
BHAo61	Ridge and furrow	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHAo62	Medieval fields and ridge and furrow west of Berkswell	Non-designated	Low	The asset will be removed through the presence of the Park Lane cutting main compound, and activities associated with the construction of the Park Lane cutting and the Park Lane realignment. This will remove the archaeological and evidential value of the asset.	High adverse	Moderate adverse	No impact on significance	No change	Neutral
BHAo63	Medieval deer park and park pale of Berkswell Estate	Non-designated	Moderate	Berkswell Estate will be partially removed through the construction of the Park Lane cutting and Footpath M214 overbridge through the medieval deer park at Berkswell resulting in the partial removal of the park pale. Further physical impacts will arise from the construction of the temporary haul road, the construction of the Bridleway M214 overbridge satellite compound and temporary material stockpiles. The majority of the park will remain but the Proposed Scheme will sever the historic boundary of the park resulting in a permanent loss of historic integrity and a reduction of significance. This will reduce the archaeological, evidential and historic value of the asset, all of which contribute to the significance.	Medium adverse	Moderate adverse	No impact on significance	No change	Neutral
BHAo64	Hobbe Cottage	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHAo65	Berkswell Conservation Area	Conservation Area	Moderate	<p>The setting of the conservation area will be affected by activities associated with the construction of the Park Lane cutting and the Lavender Hall Lane overbridge, the presence of the Balsall Common viaduct satellite compound and the presence of cranes, earthmoving plant and temporary material stockpiles approximately 200m to the south. The rural landscape and parkland character of this asset will be temporarily affected by these construction elements.</p> <p>This character will also be permanently impacted by the Lavender Hall Embankment and Lavender Hall Lane overbridge. The permanent impacts are not considered to be significant.</p>	<p>Medium adverse</p> <p>Minimal adverse</p>	<p>Moderate adverse</p> <p>Minor adverse</p>	The asset will not be physically impacted nor will its setting and significance be adversely affected. No impact on significance	No change	Neutral

				Nature of impact including mitigation	Scale of impact	Effect	Nature of impact including mitigation	Scale of impact	Effect
BHA142	Iron Age cropmarks, west of Mercote Mill Farm, Berkswell	Non-designated	Moderate	The asset lies partially within the land required to construct the Proposed Scheme; however, no works are proposed in the area. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA143	Packington Race Course	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA144	Packhorse Bridge over River Blythe	Scheduled Monument and Listed Building	High	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA145	Cropmarks	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA146	Hornbrook Farmhouse	Listed Building	Moderate	Impacts on the setting of the grade II listed Hornbrook Farmhouse will result from the construction of the A452 Kenilworth Road Overbridge. This impact is considered to be permanent, further eroding the setting of the listed building.	Minimal adverse	Minor adverse	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA147	Barn at Hornbrook Farm	Listed Building	Moderate	Impacts on the setting of the grade II listed Barn at Hornbrook Farm will result from the construction of the A452 Kenilworth Road Overbridge. This impact is considered to be permanent, further eroding the setting of the listed building.	Minimal adverse	Minor adverse	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA148	Ridge and furrow, drains or water meadows	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No Change	Neutral	No impact on significance	No change	Neutral
BHA149	Cropmarks representing a possible Iron Age Field system south of the B4102, Hampton Lane	Non-designated	Moderate	The asset will be partially removed through the construction of the A452 Kenilworth Road realignment and associated earthworks and landscape mitigation planting. Whilst this will not be removing it in its entirety, it will reduce the archaeological and evidential value to such an extent that the significance of the asset will be greatly reduced. The value of this asset in providing evidence for Iron Age activity makes it a rare asset type in this area, with the potential to provide evidence for Iron Age society and utilisation of the landscape.	Medium adverse	Moderate adverse	No impact on significance	No change	Neutral
BHA150	Possible Iron Age hillfort at Hampton Lane	Non-designated	Moderate	The asset will be permanently affected by landscape mitigation planting, introduction of woodland and the realignment of the A452 Kenilworth Road. The significance of this asset lies within its archaeological evidence as a rare site type in this area with the potential to provide evidence for Iron Age society hierarchy and utilisation of the landscape. Although this is an asset with high archaeological and evidential value, which will be reduced by the Proposed Scheme, the majority of the asset will remain in situ and therefore the archaeological and evidential value will remain. The historic value of the asset will remain unaltered.	Medium adverse	Moderate adverse	No impact on significance	No change	Neutral

BHA216	Diddington Hall	Listed Building	High	The rural isolated setting of this asset makes an important contribution to its significance. This will be affected by the activity associated with the construction of the Shadow Brook underbridge, and presence of the Shadow Brook underbridge satellite compound, approximately 320m to the west. Construction activities, including the presence of cranes, earthmoving plant and temporary materials stockpiles will temporarily affect the isolated setting of the asset, which contributes to its significance.	Low adverse	Moderate adverse	The rural setting to the south of Diddington Hall contributes to its significance. The dynamic nature of the operational scheme running over the Shadow Brook Viaduct will impact upon this setting and the significance of the asset by providing a moving visual element. This, in combination with the permanent construction impacts, will have a permanent effect on the significance of the asset.	Minimal Adverse	Minor Adverse
				There will also be a permanent impact on the significance of the hall as a result of the construction of Diddington Lane embankment, Diddington cutting and the River Blythe viaduct, which will introduce new visual elements into the rural setting.	Low Adverse	Moderate Adverse			
BHA217	Ridge and furrow	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA218	Ridge and furrow	Non-designated	Low	The asset will be partially removed by a topsoil storage stockpile. This will permanently affect the significance of the asset, reducing the archaeological and evidential value of the asset.	Medium adverse	Minor adverse	No impact on significance	No change	Neutral
BHA219	Old Station Bungalow	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA220	Small storehouse immediately north-west of Old Station Bungalow	Listed Building	Moderate	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral	The asset will not be physically impacted nor will its setting and significance be adversely affected.	No change	Neutral
BHA221	Ridge and furrow	Non-designated	Low	The asset is not within the land required to construct the Proposed Scheme. The Proposed Scheme will not affect the significance of the asset.	No change	Neutral	No impact on significance	No change	Neutral
BHA222	Diddington Farmhouse	Listed Building	High	The asset will be affected by the presence of construction activities associated with the construction of Pasture Farm overbridge and the Diddington cutting, construction of balancing ponds to the south-west and north-west, presence of the A45 Service Road overbridge satellite compound (located within the Birmingham Interchange and Chelmsley Wood area (CFA24)) and the construction activities associated with the closure of Diddington Lane. Construction activities will include the presence of cranes, earthmoving plant and temporary material stockpiles located approximately 150m to the west, and the use of Diddington Lane for construction traffic. These construction elements will be visible from the asset and will change its rural setting, but will not substantially alter its setting.	Medium adverse	Major adverse	The movement of trains and associated noise of the operational scheme running over the Shadow Brook Viaduct will impact upon this setting. This, alongside the permanent construction impacts, will be a permanent impact.	Low adverse	Moderate adverse
